## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 83-87 and 89 are rejected under 35 U.S.C. 102(b) as being anticipated by Wang.

There is disclosed in Wang a rotisserie oven for cooking food, comprising: an enclosure 1 having a roof 5a, a wall 5 and a curved section extending from the wall to the roof; a heating element 12, 27 inside the enclosure; means 17, 25 for rotating the food by the heating element; and a vent (see figures 2, 6) located in the curved section.

### ***Allowable Subject Matter***

Claims 72-82 are allowed.

Claims 88 and 90 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Bedford et al and Pearlman et al are cited for their disclosure of a vented rotisserie oven.
